Mulholland Falls Analogy and MKULTRA COINTELRPO, MLKULTRA, tied to Ongoing Government Blunders witj my DNA and DNA rights

200 Material Witness to the Felony Protection Racket undermining me not protecting me

I have a very long term history and continuing experience of losing fights I did not start, in sidewalks, stores and the legal system giving me long term record of misdemeanors tied to conduct of "double dumb ass on you" statements to various people, etc.,

I have traced the provocations to something I analogize to

Cleanup of Espionage (Manhattan Project in my case) by Espionage hits as needed to save the bosses

In Mulholland Falls and the The Bourne Identity series these are characters who are trying to brind down those who could compromise the Espionage Gone Wrong of their agencies, really in both cases the CIA with the CIA working with DAPRA and Atomic Energy

The Bourne Identity - Logistics coordinator, Niky Parsons (Julia Stiles) handled many technical tasks during Treadstone missions. In The Bourne Identity, she was responsible for many smaller tasks, such as printing wanted posters for Bourne and his traveling partner (later girlfriend), Marie Helena Kreutz, and operating a switchboard through which calls to and from Treadstone's base were filtered. She also handled more important tasks, such as being commanded to cover up the very public death of an agent, the agent killed himself by jumping out a window to escape Bourne after Bourne beat him severely (although she specifically says that she couldn't because it was public and in Paris). Essentially, her job as logistics coordinator involved managing the technical details of Treadstone missions and cleaning up collateral damage.

Mulholland Falls Gen. Timms (John Malkovich), kingpin of U.S. atomic testing, who saw the girl on the last weekend of her life. And Timms, in turn, is connected to the unbending Col. Fitzgerald (Treat Williams) and the snaky chief of police (Bruce Dern).

FBI Vigilantism Subverting Law Abiding Citizen for no appearent reason with Conspiracy Agaainst Right, open violence - but why?

U.S. GOVERNMENT RUNS 'GANG STALKING' VIGILANTISM, SAYS EX-FBI OFFICIAL

http://www.nowpublic.com/world/u-s-govt-runs-gang-stalking-vigilantism-says-ex-fbi-official

Official confirms what thousands of victims have long known: an evil U.S. shadow government is conducting a covert, taxpayer-funded genocidal purge of American society — while Congress and an apparently entrained Obama administration sleep.

Author's note: Former FBI official Ted Gunderson died of cancer on July 31, 2011. Was his illness induced by silent electromagnetic assault or by other nefarious means? We will never know — and that's just the way certain entities want it.

A former senior official of the Federal Bureau of Investigation says "rogue" military intelligence and law enforcement units of the federal government oversee a nationwide network of community-based "gang stalking" harassment, intimidation and domestic terrorism directed at thousands of U.S. citizens who have been extrajudicially targeted as "dissidents" or undesirables.

Ted Gunderson, 82, who has served as the special agent in charge of the FBI's Los Angeles, Memphis and Dallas field offices, **has stated in a series of public speaking appearances that he is now targeted by these same elements, and fears for his life and for the safety of his family.** He reports that the windows of his home have been shot out, and he believes he has been poisoned and physically sickened by those seeking to silence him.

Since his retirement from the FBI in the 1979, Gunderson has been a Southern California-based private investigator. He is most noted for his defense work on the murder case involving former Army physician Dr. Jeffrey MacDonald.

The ex-FBI official's comments represent the most compelling testimony to date indicating that "black operations" of the federal government are dedicated to waging a covert war of terror and persecution targeting American citizens.

[Edward Paul Donegan's theory, me, mine, based what he knows from my family history and also study tht JFK murder is that the Criminal Enterprise is Illumiati and Masonry Muscle in for profit world financial and genetic cultivating] with for profit genes and medicine lines]

"**Based on my thirty years' experience and research, I have determined there are thousands of victims who have been targeted by an illegal U.S. government rogue criminal enterprise** — military intelligence, probably, tied into CIA and FBI and so forth — that is active 24 hours a day throughout the United States," Gunderson stated in an October 2008 speech posted last fall on YouTube.

youtube.com/watch?v=o6MRciqml9I

NOTE: It appears that the link to the Ted Gunderson YouTube video has been sabotaged. Please search "Ted Gunderson" and "YouTube" and look for the link to his speech at the Gulf Symposium. I believe this is more blatantly illegal and malicious interference with telecommunications by operatives of Lockheed Martin, under contract to U.S. Homeland-mil-intel, or another entity representing the agencies, commands and corporations of the U.S. fusion center network.

"It is far too extensive to be controlled by private enterprise," Gunderson said. "I believe this well organized and sophisticated operation has a central command located somewhere in the United States, with multiple satellite offices scattered throughout the country."

Said Gunderson:

> Theodore L. Gunderson was an American Federal Bureau of Investigation **Special Agent In Charge and head of the Los Angeles FBI. According to his son, he worked the case of Marilyn Monroe and the John F. Kennedy cases**. Born: November 7, 1928, Colorado Springs, CO : November 7, 1928, Colorado Springs, CO Died: July 31, 2011, Memphis, TN

"It appears those who administer the program can call any location in the United States for surveillance, a telephone tap, or… harassment directed at a victim, and immediately dispense manpower to the source… This well-greased, covert operation makes the old FBI counterintelligence program (code-named "Cointelpro") look like a Sunday school class."

Gunderson also maintains that federal security and law enforcement agencies and commands have been infiltrated by members of secret societies such as the Illuminati, which he has described as a satanic criminal cult.

This correspondent has reported that Lockheed Martin, the world's largest defense contractor and the prime cyber-security and information technology supplier to the federal government, coordinates the communications and trains the "team leaders" of a nationwide Gestapo-like apparatus, which has tentacles into every security and law enforcement agency in the nation, including state and local police and 72 regional "fusion centers" administered by the U.S. Department of Homeland Security. According to company literature, Lockheed Martin has operations in 46 of the 50 states.

nowpublic.com/world/rule-law-morality-die-usa-fusion-center-slow-kill-genocide

Lockheed Martin also has operational command and control over a U.S. government microwave radio frequency weapon system, deployed on cell tower masts throughout the U.S., that is being used to silently torture, impair, subjugate and electronically incarcerate so-called "targeted individuals." The nexus of this American "torture matrix" appears to be Lockheed Martin's Mission and Combat Support Solutions central command center in Norristown, Montgomery County, PA., which employs several thousand workers. The defense contractor's global headquarters is in Bethesda, MD, just outside the nation's capital.

nowpublic.com/world/u-s-silently-tortures-americans-cell-tower-microwaves

Lockheed Martin, under contract to U.S. security and intelligence agencies and commands, also conducts warrantless surveillance of the telecommunications of targeted persons, and

routinely censors and tampers with the content of their communications, as this reporter has documented in a series of recent articles:

nowpublic.com/world/u-s-govt-uses-spoofed-web-pages-and-urls-censor-internet
nowpublic.com/world/more-blatant-ideological-net-censorship-u-s-intel-gestapo
nowpublic.com/world/phony-facebook-comment-block-lockheed-martin-cyber-censors
nowpublic.com/world/wash-post-blog-moderation-used-cover-u-s-govt-censorship

Thousands of Americans, including this veteran journalist, have publicly reported being the victims of silent electromagnetic assault and community-based home intrusions, vandalism, and even the poisoning of food, water and air. Federal and local law enforcement routinely dismiss their reports as the product of delusions or mental illness, and refuse to investigate their complaints.

These “targets” and their families have been physically harmed and financially destroyed as a result of taxpayer-funded “psychological operations,” police-protected community “stalking” harassment and malicious vandalism, and other covert programs of personal destruction, including government-assisted financial sabotage. Many appear to have been targeted as a result of their politics; their activism or corporate whistle-blowing activities; their ethnic background; or as a result of score-settling vendettas by persons in positions of power — in government and in the private sector.

The former FBI executive’s remarks are only now attracting widespread exposure on this and other web sites. This correspondent believes that recent revelations of government-sponsored domestic terrorism against U.S. citizens have prompted some conscientious insiders to call attention to Gunderson’s public statements.

Gunderson has said that government-sponsored gang stalking terrorism is financed “through illegal black operations,” such as sales of illegal drug; gambling; prostitution; and even sexual exploitation of children. But this reporter believes it is more likely that programs of government-sponsored domestic terrorism are funded from military and security “black ops” budgets that have been illegally diverted to covert domestic programs administered and conducted primarily by defense contractors.

Late last year, The New York Times disclosed that an official of the U.S. Air Force had set up an unauthorized military intelligence spy ring in Pakistan and Afghanistan, run by Lockheed Martin and funded by defense appropriations.

nytimes.com/2010/10/29/world/asia/29intel.html

This correspondent suspects that a similar arrangement could be funding government-sponsored “gang stalking” operations throughout the nation, and has urged Congress to immediately hold public hearings as part of a comprehensive investigation of military-style

"black ops" targeting American citizens and their families — a silent, slow-kill genocide motivated by ideology and hate.

@EddoneganB @IchooseLove22 @FightingMonarch @Robby12692 Tho a + @newsmax exists and resists, its name is telling. Many media orgs are not researching story carriers but rather Propaganda operations for the interests they co-ordinate with including blind spots, pol intimidation of dissent

Subversion, Pure Risk, War Risk, War Operations

https://www.iedunote.com/pure-risks

There was a liability at least in murdering JFK. There was a risk of Nazism returning or racial strife destroying White European civilization.

My theory of this book is a Treason, successful, using the US Military and units within for objectives of the NWO in a war close enough with USA interests its ideology and purpose seems within the USA and the USA Command and Control.

In fact though this subversion of the USA and Military Forces creates a New Age John Harts war whose interests, methods, and objectives are at odds with, not aligned with, USA interests and the survival of some USA citizens and civil servants where these citizens or civil servants our outside the interests of the NWO but are law abiding and in the Constitutional Rights jurisdiction of the USA.

Targeting for Assassination law abiding citizens is the missue of military and espionage for foreign objectives and is largely either concealed or operated by moles within USA Government or Media.

The basic form of the scam is that those who surround me to, in their own words, defeat white supremacism, will label me with their own acts by assaults upon me for their acts towards others and toward me.

My law abiding Libertarian Objectivist political philosophy and art and contributions to those spheres are co-oppted into other systems while those same entities engage in incursive tresspassing vigilantism against me abusing me under color of law and using blame for the conflict incidents to subvert me to other in all maters of my life.

Illegal as an equal protection matter in the first place and second place. I am not responsible nor liable for any matter and then using planted evidence to subvert me in other matters is as illegal as it gets.

In the matters below and in this book children are victimize, both my character, by moral system, and my presence in public in the areas of the crimes are blamed by the perpetrators who claim to prosecute me but instead in a string of Due Process avoiding shams merely backstab me and persecute me for public conflicts they themselves originate.

Generally Social Justice operatives and beneficiaries are framing me, my morality, my esteem, my philosophy, even my art, such that theirs is perceived as better than mine and property claims against me and my Radical Right Wing are made as well.

The outlandishness of the acts towards me which make statements and labile me and towards other are sufficient to both incite me in anger and to incite others.

This is espionage based incitement of others against me, against my rights, and against my property, even against my family line and is unparallelled in history by the backers of the plan have no other way out from what would otherwise occur, my normal reproductivity, life, and assertions about MKULTRA and being its victim..

The system takes my normal acts in reality and turns them into a play on a stage as actors surround me similar to or as the FISA scandal. My dialogue of I would like a personal pizza gets responded to by a covert operator turning that into some seedy WWII antique shop dialogue.

In extortion vendors assert that my normal purchases are code purchases and use my normal purchases as their foil. For instance at Subways Sandwich Corpus Christi my order of a southwestern chicken sandwich special on a poster on a wall led to a black female making statements like "how do you want that stake and cheese" and in other orders at that shop "well you you like your buns toasted/buttered?"

John Harts New Age War funded by claims against seeming slave owners, aka abusers of SJW beneficiary females.

The know i reject their entendere but a protection racket which planted the vendors has a Doppelgänger of me who did order pizza and the cops will catch that person.

> [They pull up by an antiques shop and get out of the car.]
> Peggy Carter: This way.
> Steve Rogers: What are we doing here?
> Peggy Carter: Follow me. [They go inside.]
> Antique Store Owner: Wonderful weather this morning isn’t it?
> Peggy Carter: Yes, but I always carry an umbrella.
> [Peggy leads Steve into the hidden lab to Dr. Erskine and his team in a big circular room filled with machinery and a pod in the middle.]
> https://transcripts.fandom.com/wiki/Captain_America:_The_First_Avenger

What happens in that backroom the Doppelgänger of me is lead to a Honey Pot, an adult entertainer who attracts a pedophile who is the dopple of me, then the Dopple is forced to call the trust fund for a pay up or be arrested fee, the subject of what in cons are called The Grandparents Scam in shaking down the grandparent.

Before we get to the emergency, which does not exist, let us consider who wants to claim they are my emergency contact.

Christ Llloyd. His daughter worked for Genetech in marketing and he had some genetics companies he was working on including something phonetically called Flow Through and possible AIDS or or other research.

The ARC of Northern Virginia, retardation and Autism researchers seeking genetics cures.

Nueces County Social Services I refused to sign up for and never will, or the Nueces Texas District Attorney Matt Gonzales or US Marshalls who conduct asset seizures.

My brother Tom Donegan, gay rights activist and who has fought me for years as to whether I was competent or not, I always said I had far more actual real work and training than him.

Over the course of time I have learned that the emergency often is Doppelgangers of me mostly non white who have pictures of buttocks, especially white gym women, and have kept those pictures as "visual porn" and now those spontaneous masturbating Doppelgangers of me owe those white and other females MY DNA for them masturbating.

Again, this witness group includes "mop pushers" who through fraudulent acts inaccurately allege my masturbation, cause my self relief by denying me a partner, or themselves masturbate in gyms to white women in medical anonymity as the identity will be confused with my own.

The Sound and Fury Ploy I refer to is that as others photograph women character assassination of me before the public ascribes the event to me but denies me an allegation I could refute if it were made. Simply staring at me in aviator glasses is the baseless character assassination type of activity.

The Doppelgänger will have some sort of emergency and Grandparents will be called for the incompetent, the Doppelgänger of me, who needs some representation to settle matters.

This is the public appearances being manufactured linking me to things I am not linked to.

Thus PsyOps of MKULTRA and CIA Secret Service operations persecute me for activities I am not actually linked to, utilizing Marshall and other tactical groups can carry out lethal criminal and religious harassment conditions of my life through inciting vigilantism against me.

The work product of staging incriminating dialogue and photos I have no control of leads to the later assessment I must have been involved in something at the scene, but by the time of that confrontation I have been switched out with a Dopple who will take the circumstantial evidence and forge my confession to it creating a preponderance or complete case of my alleged involvement in calling adult entertainers, and those entertainers find the dopple of me has child porn.

In most likely some "deputized and self funding neighborhood watch the non whites or gays at the scene, or via the confession, are rewarded assets, genomic assets, for the sex offenses I appear to have been involved in.

It seems a Mr Hyde side of me came out, but in fact My Hyde is a real sex offender following me around dressed as me.

For the police/prosecutor, prosecuting THAT Mr. Hyde can get Dr Jekyll’s genome for the victims of Mr. Hyde and from Dr. Jekyll, if misrepresentation of Dr Jekyll is actually working for the

victims of Mr. Hyde.

It is Mr. Hyde, or Lesbian couple Mrs. Hyde and Mrs. Hyde, who created the offense and then solved the offense, and as such, like the victims, will be part of the settlement from my retardation assets trust fund.

Effectively, Prosecutors and even Masons can fund their Christmas Toys Bins for their beneficiaries by faking cases against me while also claim to REPRESENT ma and my interests.

They do not, they are using my assets for themselves, and assigning their liability to me.

	Me Denying to me there is any allegation against me these condescending SJWs will tell my "grandparents" they are entitled to my baby because of what they caught me [themselves] doing

One of the pro non white affects of this is the white person looks bad because the the Hoax, and it is a hoax, makes Dr Jekyll look like scum and a harmer of the vulnerable.

Black Marshalls staged at least 20 photos of teens and tots being photographed by an ass fetishist. A protection racket will in secret proceedings allege I took the pictures.

Getting themselves substituted for me, Anti White Supremacists isolate me and surround those who may have been influenced by my

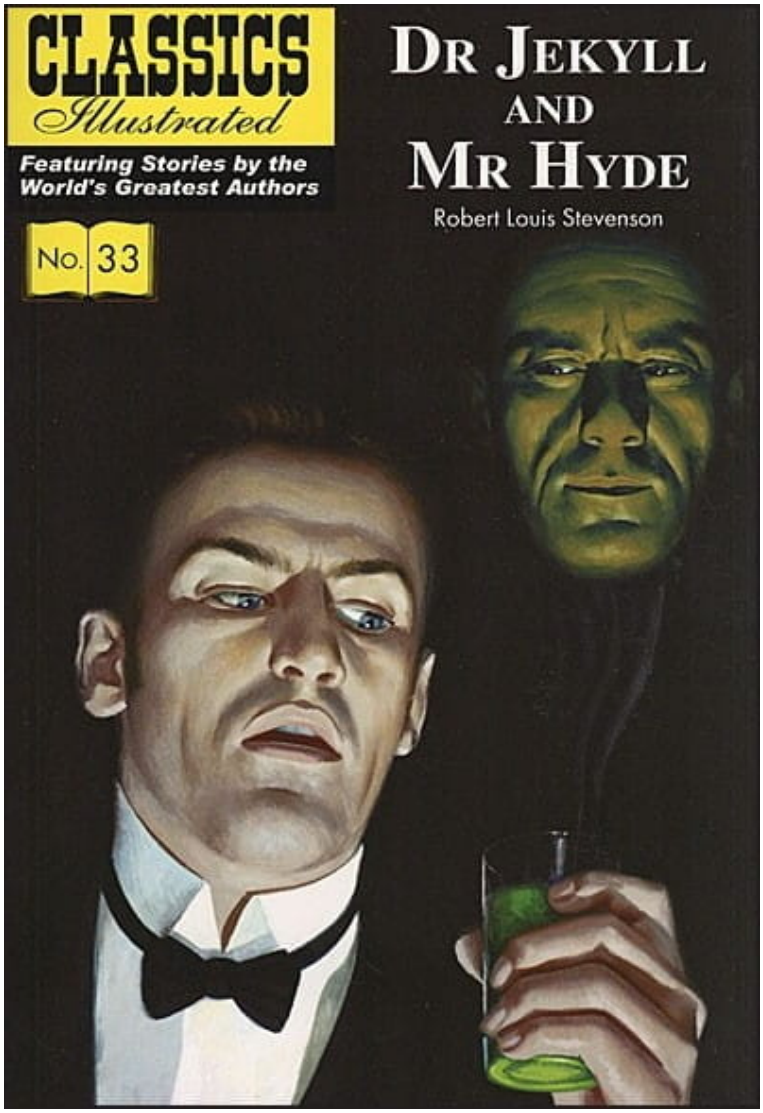
Dr Jekyll is proud of being white and defends the white race. His alleged "Mr Hyde side" loves minority children as his own and as his sex objects.

My Hyde is a dopple of me, not a side me, not a disassociated personality of mine. A fraudulent record of that being me was created and a fraudulent claim I have dissociative disorder fits the Mr Hyde personality attributes to me.

Mr Hyde is a alleged side, a character assassinating view of me, created by an Information Doppelganger and that acts of that information Doppelganger.

Black Marshalls	**Mr Hyde**	Related to neither, Ed Donega, Dr Jekyll

The paradox of who is Mr Hyde and how does he fit into some other identity



What "set off" Mr Hyde to masterbate to peeping tom acts and photos, that the Law Enforcement who invented and deployed Mr Hyde as FBI contractor was the need for the Government and Religious Missions to claim rights to my DNA and make a sock puppet Ed Donegan who has harmed others.

A fake "trigger" alleged in me is something set me off. In fact nothing ever did but women who the government wish away from me are told they should not be around me. Acts of others in my direction are women making a public show of apologizing for being around me, but vague that up with also the apologies is for tangling feet, shopping cart collision, etc.,

The sock puppet are my stolen clothes put onto the pupet of me to ID me.

Hyde, that puppet, is drawn from prison and homeless populations to "mind model" the allegations made behind my back which defame me and create liabilities in which property of mine (Dr Jekyll in this metaphor) is due to people victimized by Mr Hyde in my vicinity.

I have long said correctly the ass fetishism, peeping at women normally in my view, a need for white skin rather than Gothic or Victorian or leather or latex fashion was the prison felon aesthetic, not mine.

Mr Hyde disassociates, exists, in FBI operations per Jen Moore, the CIA and Secret Service from what I have heard directly, and flow from Eric Holder like programs targeting, defaming, and dispossession Whites who are seen as antagonistic to blacks and thus must be pre-empted and co-opted with the property of whites moved to blacks creating an equity rather than disequilibrium.

This is the fight against White Supremacism, "Targeting" me as Targeted Individual with defamatory and illegal evidence plants, etc., then inciting vigilantism against me.

As i sought the answer for racial hate crimes against me that only further polarized and issue still do not as my calling out black or other aggression and research the reason.

Further, that seems tied to MKUTRA history of 1961 tied to Obama, MKULTRA, religious use of my DNA, and the fake claim, claim backwards, that all of the was justified and allowed.

In fact this is mere persecution of me for acts and interests not my own, but created cover stories of who can create claims to my DNA as I move from homeless shelter to homeless shelter.

That others have an interest in use of my DNA they will not admit to me solves the paradox of why Mr Hyde is tied to illegal State persecution of me and why the State will not stop the acts against me.

Color Code

AG

The Aviator Glasses Wearers almost always are non-white, gay, or non-white gays. Their placing of Shill female vicitms near or in front of me, ass flashing me, or their photographing of women near me create the Legend that I am threat to women and women are a threat to me and that my DNA is due to those who were exploited [by the racket]

The black male and black nationalist above moved into apartment 40 of the floor I am on and another black male moved into apartment 47. Constant drug use, fighting, and violence was the result of them in the building and they repeatedly fl\ramed me while planted in the prepared building.

Because this scheme depends on inciting vigilantism against somebody scorned and that is done by planting evidence, physical assaults upon me, staging sympathetic figures as victims of a supposed scum bag, the total record is of manufacture of allegations against me to gain a fraudulent result.

Hundreds of material witness to this plan to defeat the appearance of white supremacism will be listed along with a gig at least of proof in evidence that this is all a sham and based in felonies, allegedly harmless, but not, allegedly ethical, but not.

The cover operation makes victims of Tom Dunham, myself, my parents, and others by asking neutral parties, the good guys, to do some dirty tricks for the social good including racket activity for the social good.

The operation of these assaults upon me in both the home, medical recovery, grocery, and other locations I use is part of the offensiveness of these acts the public and the press have supported though.

These self interested parties in the langauge of the street started it both surrounding me and my mother and those I know or knew such as Tom Dunham to fake a sexploitation of women ring that does not exist but is used to persecute me.

Hear Sayers

As is typical in PsyOps the the Good Guys often have been duped into acts by manipulators and these Good Guys will even help communicate the falsity they themselves hold as truth.

These dupes I call under the PsyOps sway of position 3 only speak honestly with postion 3, that position dishonest with them.

Thus in position 1 I have only this book to correct the record.

The Color of Law has been misused to gain the trust and cooperation of people in a very evil con scheme.

30 Yard Flips

Many Hear Sayers are those I would have been near or friends with but I was socailly sabotaged to. Thus a 15 yard forward play I would have made is flagged behind the scenes and I lose 15 yards instead.

Its a bad call on faked or staged photos, etc., but it leaves me with a 15 yard loss and 30 yard deficit.

This has been used to defeat my housing and seuxal reproductive rights, publishing rights, etc.,

This chart lays out the persecution of my by the protection racket and will be usefull for the classes of people witness will be listed by.

Conspirators Against Rights	Assets or Agents	Public Label Surounding Me	Me	Displacement of me with under privileged

Locations and Psuedo Locations

Locations I was at and locations I might have gone to but did not.

At locations I was at the class of witnesses of Mop Pushers, Doppelgangers, Marshalls, FBI, Teens as Pizza, were at.

Mop Pushers make statements like "have a handkerchif in your pocket" towards me or ass flash me as though they "are my porn" rather than people in public.

Etiology, Mens Rea, and Actus Rea

The need to sabotage me to women, making me look like an exploiter of women, a danger to women, and a teen or tot fetishist with no artistic or sexual sophistication created black nationalist desired assault upon me as character attack and allowed the imagery of me being assaulted with these teens and tots to inflame others against me since I was blamed for them getting in my path and I also am assualted on the scene for them being in my path.

Creating similar assaults on my intellect allow retardation firms to create a management of my genome for use in minorities as Social Justice.

Stalking and being assaulted (as I always am) Stalking

Stalking involves "repeated visual or physical proximity, non-consensual communication, threats, or a combination thereof" that are repeated on at least two occasions. There are seven specific tactics used by stalkers:

Hyperintimacy

The stalkers knows more about the stalked that expected and displays that.

Mediated contact

(Aggressive and hostile position maintained by subterfuge failing to concretely identify themselves or motives or reason for stalk impeding response and proof of stalk.

Interactional contact

(In my case blacks and non whites accuse me of pedophilia or teen phelia and peeping tom activity by disgustingly sexualizing alleged victims during my activities and police deny to me I an being stalked. During the course of the stalk ghetto non whites will make vague statements about "liking my watermelons and how big they are or my cookies and how they will have my baby, no further explanation though some have said I owe for teens and tots being near me and "I wanted it." The Zoom photographer who will victimize the exploitable female is the peeper)

Surveillance

Use of surveillance data on me such as knowing I ordered an amazon weigh bar in the privacy of my home allows evidence manufacture in public I was led to that idea by a stalker, thus the stalker creating a visual appearance of being a helper to me rather than a Shiill and stlaker)

Invasion

Using Building Super and rental staff to facility break ins, evidence plants, physical and sexual assaults and robberies from neighbors and mail theft.

Harassment or intimidation

Frequent death threats on the basis I DID photograph the exploitable victim though a shill working with the other shills did, death threats on my filming the entire scene of then faking the exploitation of the teen or tot, police threats of mental health detention for thinking these stalkers are in any way tied to me)

"Dabbing" or "Cohorting" has been used with me. While I am actually in the dark of why call girls seem to be visiting those around me or who the parties are or what they are doing the males will often bang the wall in between seperate apartments or hotel rooms as if to say "we are getting started now together" through the banging on the shared wall.

Similarly blacks or gay scam artist who wrongfully have knowledge of anything I am doing inside my apartment will bang or knock on my door as though we are doing things together, we are doing things together, when we are not. The cover story of why the Ethiopian maid shows up as I am typing something intelligent is both psychological inflammatory to me as well as their pretending of involvement of my own independent work.

E.G. "Pork Chop" of Casa Linda and Donald who assaulted me was I was emailing Sarah Tonin, and these will be a class of witnesses themselves.)

I have requested an expungment of my record so i can obtain a shotgun and clear my front door outdoor side or patio from harassing assailants, including roaring engines.

Repeatedly those assaulting me during work or acts of necessity such as food or gym have said they will have my children and I have insisted any child with genome from me will be incinerated if ever found.

No one has any dount I mean that and part of trying to incite me to punch is rape baby taunting openly laughing about have buckets of grease, etc,

I have long speculated this was launched in the program Okeefe exposed of trying to provoke me to punch in any way that can be accomplished via stressors.

Coercion or threat

(Death threats from the those did did peep against me to establish the public appearance it was e who took the picture. Doppelgänger AKA Zoom photographer will give into Payup or Be Arrested using identity theft, in my identity to money launders.

Basic Operation of Zoom Photographer Scheme on locations and Persons operating it over decades

Key elements were there. On one side of the street an Internet Cafe I was writing from and on the other side an apartment building. Someone from NA pointed out a woman chaning fairly frequently

ala The Naked Guy and a scuzzy non white ex prisoner borrowed my SLR until he acted so creepy I demanded back earlier than he was borrowing it under verbal agreement.

Bizzare treatment of me followed that though I considered my own acts highly credible. Similar at Firehouse meeting of NA and also North Point where very scuzzy black person was making a scene. I think he said he was police but seemed more Marshall or something like that. Kept is acts hidden but was stalking me, often with his hands towards his genetilas in an upscale meeting AA location.

Folsom Street Eviction

I was living a a major scene area of FOlsom street very close to Tom Dunham and across the street from a bar he and I often hung out at. With no provocation whatsover my belongings were destroyed and I was thrown out while not there. Nothing made any sense butI was obviosouly being gang stalked in the gay bar downstairs in which innuendo and verbal assaults of me made no sense whatsoever.

The judge and everyone else refused any allegation against me and all non-sequitor assault on me (not flowing from anything I ever did) was non stop and unexplained.

Similar to my near rental with a meth dealer of an apartment across the street from Story Leather. Again, just all went cold on me, nothing to do with me or my actions.

Ball Park West. Foolish "Meet by the Poolside in the bushes" notice sent to me as a moron thinking I was in a college class, and of course I did not go along with it but a Doppelgänger did and I was evicted before getting there, all back females seem to set that up, and I had every legit right to live in Austin without fake allegations.

Both Stay and Play and Captiola same acts, and Casa Linda and Princess Apartments, all runing Doppelgänger scams.

Golds Gym, In Shape Fitness, LA Fitness, others placed bait for the Doppelgänger photograhper.

Same with Omin Hotel and Stripes.

In all cases negative activity of others in my vicinity will be ascribed to me and my positive activity will be ascribed to assailants positioning themselves in my vicinity during my work such as writing.

Mop Pushers create a fake legend of Fapping not occurring

At the DC Thermal Shelter, Bay Area Laundry, Target, Arlington County Sherrifs Detention, San Francisco streets, North Beach, Sea Wall, Golds Gym, Alrington Sport and Health, and other locations police reports, witnesses, photos, and other evidence show non whites engaged in masturbation at the site of women, particularly white women and often in swimwear, yoga pants, or cutoffs, not any particular fetish of mine.

In the Long Con these are also the Zoom Photographers who victimize women in my vicinity and work it out behind my back with a Protection Racket.

Character assaults upon me will be made associating me with the acts of others though any actual accusation against me will be absent from the staged innuendo.

Use of complicit personnel at homeless shelters chaning out sleeping locations or hotels claiming adjoing rooms has facilitated swapping the fapping from another to me or simply stigmatizing me need to get off in lue of having a partner.

Finally normal acts are escalated into peeping though not related to that so that evidence of peeping seems to exist while it is in fact not present.

Etiology again knocks

Everyone I ask says there is nothing at all in anyway unique to my genome yet people keep saying they are going to have my baby, also as they accuse me of irregular acts.

My belief is a scheme was needed to claim rights to my genome so it can be moved in such a way as to move the origins of the maternal side of the Obama family to sought locations and also at the same time prevent me, the half brother of Obama, from living normally and developing my own family tree.

Witnesses to what?

Before I list the California main witness (Jim Vocelka and William Ruiz) it will be necessary to understand the long con being run which until about 8/1/2019 I did not understand because the scheme was protected from my scrutiny, protected by the appearance of statements made to me which when I attempted to pin them down were withdrawn, protected by blind conservator ship misrepresentation of me, and media support for the protection racket operates by plant stories to create the “Legend” cover stories.

(In the conduct of Espionage covert operatives operate in a bubble of cover story as to who they are and what they are doing and in at least my case they manufacture a Legend of who I am by staging photos out of my control, planting evidence with access to my apartments, elsewhere, paying off witnesses or pretending to be neutral witnesses, etc.,)

Arriving in Texas homeless in about 2014 and using Gold’s gym Corpus Christ in about 2014 I saw unusual activity around my gym bag on the floor. I had it with me because I did not have a good quality lock to protect it from evidence plants. Plain clothes people surrounded it and warned people away from it as though a hazard, at the time I thought an alleged bomb.

Over the course of years, I saw that surrounding my forearm smart phone etc., and in late 2019 realized others were peeping tom photographing the gym, begging me to take yoga, and alleging a yoga pants gym shorts buttock fetishism of mine.

The “Legend” I was the one with such fetish gave others the cover story to engage in peeping tom acts, deny to me there was any issue, and tell others to stay away from me, babysitting me” in plain clothes, denying to me any cause or need existed for any party to be near me, told me mere coincidence.

Part of the Legendary acts occur when a Doppelgänger of me is invited to a secret room, Capt Rogers antique store style, where Capt Rogers is caught with peeping tom porn and must pay up with his DNA. That I really was in the store was true, and somebody did say something codewords

like to me. Resultantly, babysitting me" in plain clothes, denying to me any cause or need existed for any party to be near me, told me mere they were normal gym patrons near me by mere coincidence but told others they and I were protected by plain clothes people in between me and women.

Thus they never showed good cause to me for their acts and they knew the appearance I was aberrant and needed babysitting was actually based on their own acts dressed as me and said to others to be my acts.

Over many years I would find a Doppelgänger of me was a peeper and being assessed my DNA for that persons act of peeping, agreed to a blind trust of me, one with stated racial hatred of me, and for social justice in the fight of white Supremacism launching law-fare against me for acts not my own but for biological property of my own.

Use of empty character assassinations or retractable implications in conversation with me gave the cover for the fraud to exist. The fraud is that a Doppelgänger of me was the offender, I was blamed by parties alleging to support me, and I have been denied accounting. Though it not necessary to explain a motive for fraud I believe this is CIA, FBI, and Secret Service connected as well a black nationalist connected and tied to racial experimentation with my family's DNA dating back to 1961 and that now a cover story must be created for continuing CIA operations regarding my DNA.

From 2007 to 2009 I was in a federal medical hospital trying to trace the theories of black nationalism which was the belief of assailants of my mother and I. Someone said to have been FBI SIS or Marshalls undercover as a prisoner made death threats against me repeatedly that my throat would be slashed, my balls would be cut off, and Jessica SImpson would be fucked by blacks, Jessica Simpson a bikini blonde on his coffee mug.

This person also assaulted me about my mother's heart stopping from Potassium congestive heart failure while I was in prison, a worry of me at the time, proving to me he was some sort of plant to assault me, he would not have otherwise in any possible way known the situation with my mother.

This I think is tied to the long term black nationalist street thug assaults that have been inexplicable over the course of my life and my mother's life and I now think tied to Black Hebrew Israelite and an Illuminati plan tied to my DNA in religious foreign racial use, Feb 20 Spiritual Code. My reproductivity ended and the appearance of the value of DNA as it exists in me must be erased if this DNA is to become "black DNA."

In Mountain Prophecies from Linda Newkirk it does seem black nationalists have targeted my mother and myself, in my case certainly for three decades.

With the core scheme outlined the witnesses to it will be identified in each location starting with Stay and Play then Capitola.

The core scheme is I will be defamed by a frame job behind my back, a peeping event probably at a teen or tot and probably buttocks. The actual perpetrators will character assassinate me with the moral high ground of a Sheriffs cap or something suggesting the Sheriff is an inch behind me, but the what I am not accused of was done by the person in the Sheriff's hat who will then ask any woman I was near to take the fake Sheriff as a substitute for me, behind my back, and that women will ask the fake Sheriff to sign my DNA over to others around the world and inter racially.

Finally, the White Supremacist Scum Bag will be sent packing. As I have pointed out this is the cause of my racial issues, this aggression towards me, and not the effect of them.

Defining Subversion

Subversion, like terrorism and insurgency, has no universally accepted definition (Spjut, 1979, p. 254). For scholars such as Charles Townshend (1993, p. 116), the term is so elastic as to be virtually devoid of meaning, and its use does little more than convey the "enlarged sense of the vulnerability of modern systems to all kinds of covert assaults." Indeed, during the Cold War, the British Security Service (MI5) defined subversion as a generalized intention to "overthrow or undermine parliamentary democracy by political, industrial or violent means" (UK Security Service, 2005). Among American officials, "subversion" was an equally imprecise term, most often used when describing real or more fanciful clandestine efforts (by communists, typically) to undermine the United States and its friends and allies.7

Viet Cong: The Proselytizing Program

he communist opposition in South Vietnam embraced a strategy that employed both violentand nonviolent methods in an interconnected way. What Douglas Pike (1966), p. 85) termed the NLF's "violence program" included terrorism, guerrilla warfare, and conventional military operations. The NLF's "political struggle" included a range of actions intended to build support among the Vietnamese people, mobilize the population, and weaken the ability of the Saigon government to prosecute the war. For the NLF, however, the political struggle was by no means secondary to the armed campaign; rather, these two elements were conceptualized as equal d complementary components of the overall campaign against the Saigon regime (CIA, 1966, p. 14

Wikipedia retrieved from Psychological warfare and copied or modified to here

Psychological warfare (PSYWAR), or the basic aspects of modern psychological operations (PSYOP), have been known by many other names or terms, including MISO, Psy Ops, political warfare, "Hearts and Minds", and propaganda.[1] The term is used "to denote any action which is practiced mainly by psychological methods with the aim of evoking a planned psychological reaction in other people".[2]

Various techniques are used, and are aimed at influencing a target audience's value system, belief system, emotions, motives, reasoning, or behavior. It is used to induce confessions or reinforce attitudes and behaviors favorable to the originator's objectives, and are sometimes combined with black operations or false flag tactics. It is also used to destroy the morale of enemies through tactics that aim to depress troops' psychological states.[3][4]

Target audiences can be governments, organizations, groups, and individuals, and is not just limited to soldiers. Civilians of foreign territories can also be targeted by technology and media so as to cause an effect in the government of their country.[5]

In Propaganda: The Formation of Men's Attitudes, Jacques Ellul discusses psychological warfare as a common peace policy practice between nations as a form of indirect aggression. This type of propaganda drains the public opinion of an opposing regime by stripping away its power on public opinion. This form of aggression is hard to defend against because no international court of justice is capable of protecting against psychological aggression since it cannot be legally adjudicated. "Here the propagandists is [sic] dealing with a foreign adversary whose morale he seeks to destroy by psychological means so that the opponent begins to doubt the validity of his beliefs and actions."[6][7]

Forms of Subversion

In addition to fomenting riots, what other activities might be characterized as subversive? Subversive actions can be grouped into three interrelated categories: (1) establishing front groups and penetrating and manipulating existing political parties; (2) infiltrating the armed forces, the police, and other institutions of the state, as well as important nonstate organizations; and (3) generating civil unrest through demonstrations, strikes, and boycotts. These categories will be discussed in turn below and will be explored more fully in the case studies.

Front Groups

To gain public credibility, attract new supporters, generate revenue, and acquire other resources, terrorist and insurgent groups need to undertake political activities that are entirely separate, or appear to be entirely separate, from the overtly violent activities of those groups. Sometimes this is achieved by infiltrating political parties, labor unions, community groups, and charitable organizations. Working in and through existing organizations, which provide a façade of legitimacy that might otherwise be unobtainable, terrorists and insurgents can bolster political allies, attack government policies, and attract international support. For those situations in which infiltration is too difficult, terrorists and insurgents may establish their own front groups - that is, organizations that purport to be independent but are in fact created and controlled by others. Front groups, notes John Thompson (2003), "can draw the sting of disapproval away from the cause and re-direct it against the state or institution that the terrorists are attacking." During the Cold War, front groups were established by many insurgent and terrorist groups, including the FMLN, the Viet Cong, and Sendero Luminoso (Shining Path). Today, groups as diverse as al Qaeda, the Kurdistan People's Congress (formerly known as the Partiya Karkaren Kurdistan), Lashkar-i-Taiyibah in Jammu and Kashmir, and the LTTE operate through political, social, and charitable fronts (Gunaratna, 2004, p. 95; Foreign Broadcast Information Service [FBIS], 2002; "Workers' Party," n.d.). Sinn Fein, the so-called "political wing" of the Provisional Irish Republican Army and arguably the most famous terrorist front in modern times, continues to serve as the respectable public face of Irish republican terrorism.

Infiltration

Terrorists and insurgents who penetrate state institutions can derive at least five significant benefits. The first is information: Infiltrating organs of the state, particularly the security forces, can help generate invaluable information about the government's capabilities, intentions, and weaknesses. Such infiltration, therefore, might be considered a form of intelligence collection against the state. Second, penetration can give terrorists and insurgents opportunities to plant false information, redirect the state's potentially lethal gaze, force the authorities to misallocate resources, and otherwise derail the state's campaign. This too is a type of intelligence operation; like counterintelligence (CI) carried out by government intelligence services, it (secretly) aims to disrupt the organization and operations of enemy forces. Third, successful infiltration may lead to opportunities to steal government funds, weapons, equipment, and other resources. Fourth, penetration allows insurgents and terrorists to "talent spot" potential recruits and identify candidates for blackmail or bribery. Finally, infiltration can contribute to the terrorist and insurgent strategy of weakening and delegitimizing the incumbent power.15 Just as infiltrators can help derail the state's counterterrorist or counterinsurgency campaign, so too can they degrade the state's ability to provide key public services by misdirecting resources, stealing funds, and spreading false and divisive rumors among those in the government workforce.

Infiltration of government institutions has been a tactic of revolutionaries at least sincethe time of Lenin, who concluded more than a century ago that "unless the revolution assumesa mass character and affects the troops, there can be no question of a serious struggle. Thatwe must work among the troops goes without saying" (Lenin, 1900).16 But the tactic is by nomeans confined to Marxist-Leninist groups. Al Qaeda reportedly claims to have infiltrated keygovernment agencies within the United Arab Emirates (Lathem, 2006), and in

Bangladesh,the radical Jamaat-e-Islami party, which sponsors a network of 15,000 guerrillas, has filled thecountry's armed forces, security services, and civilian agencies with its sympathizers (Harrison,2006, p. 15). In Iraq, as mentioned above, insurgents have reportedly infiltrated the armedforces, the police, and intelligence services (Inspectors General, 2005, p. 22; "Insurgents,"2005). Such penetrations can have deadly consequences. An insurgent mortar attack on anIraqi National Guard base north of Baghdad in October 2004 killed four and wounded 80;according to a press account (Schmitt and Shanker, 2004, p. 1), the attack "came at the exacttime guardsmen were mustering for a ceremony, which is seen by experts as an indication thatthose firing off the mortars held inside information."

Finally, it must be mentioned that insurgent infiltration is not limited to state institutions, as again demonstrated today in Iraq. In Anbar province, insurgents have systematically infiltrated universities, where they reportedly occupy top academic and administrative positions. Iraq's oil industry, the country's most important economic sector, is also thoroughly penetrated by the insurgents, who have gone so far as to establish affiliated front companies to rake off illicit earnings.

Civil Unrest

As with infiltration, fomenting riots, organizing strikes, and staging demonstrations can have a corrosive effect on the power, presence, and capabilities of the state. Such unrest is first and foremost an affront to governmental authority, and the failure to suppress it can have damaging political repercussions for the state by demonstrating that it is incapable of living up to its fundamental responsibility to maintain public order. At the same time, however, overreaction by the security forces can play into the hands of terrorists and insurgents by seeming to confirm the opposition's claims about the fundamentally repressive nature of the state. The death of a demonstrator at the hands of the Berlin police in 1967 helped radicalize a generation of German young people, who came to believe that the Federal Republic of Germany was the Nazi regime reborn - a key component in the ideology of subsequent terrorist groups, most notably the RAF.

Civil unrest can prove useful in a variety of other political and operational ways. Largescale discord can deplete the resources of the state by forcing the authorities to deploy additional police, pay overtime, and in some cases send troops into the streets. With the security forces otherwise occupied, insurgents and terrorists gain a respite from the incumbent's campaign against them (U.S. Marine Corps Intelligence Activity, n.d. [1999]). Additionally, the greater presence of the security forces in response to unrest - in the form of patrols, roadblocks, and searches - can help the cause of the terrorists and insurgents by seeming to confirm the opposition's inevitable charge that the state has "militarized" the conflict and is now "at war" with people.

Strikes can cause serious economic damage. As Carlos Marighella observed in his Minimanual of the Urban Guerrilla (1969), perhaps the most widely read revolutionary "how-to" manual of the 1960s,

> strikes . . . although they are of brief duration, cause severe damage to the enemy . . . [by] disrupting daily life, occurring endlessly, one after the other, in true guerrilla fashion.

Even less violent forms of unrest, such as worker absenteeism, passive resistance, boycotts, and deliberate attempts to cripple government agencies by "overloading the system" with false reports, can have powerfully disruptive effects, both economically and politically (Molnar, 1963, p. 102). According to one scholar associated with HT, "a regime could be brought down through acts of civil disobedience such as strikes, non-cooperation with the authorities, or demonstrations" (quoted in ICG, 2003, p. 7).

Types of Subversion

Subversion can generally be broken down into internal and external subversion, but this distinction is not meant to imply that each follows a specific set of unique and separate tools and practices. Each subversive campaign is different because of the social, political, economic, cultural, and historical differences that each country has. Subversive activities are employed based upon an evaluation of these factors. This breakdown merely clarifies who the actors are. While the subversive actors may be different, the soon to be subverted targets are the same. As Paul Blackstock identifies, the ruling and political elites are the ultimate targets of persuasion because they control the physical instruments of state power.[18]

Internal subversion is actions taken by those within a country and can be used as a tool of power. In most cases the use or threat of force is the last step of internal subversion.[19]

External subversion is actions taken by another country in cooperation with those inside the subverted country and can be used as a tool of statecraft. Foreign volunteers from another country are not enough to qualify for external subversion.[17] The reason for this is that the individuals may legitimately share the cause of the internal subversive dissidents and have legitimately volunteered. Only when the government itself furnishes a nation with money, arms, supplies, or other help to dissidents can it be called external subversion.[20]

Tactics

Insurgencies differ in their use of tactics and methods. In a 2004 article, Robert R. Tomes spoke of four elements that "typically encompass an insurgency":[24]

- cell-networks that maintain secrecy (such as mole staffed Law Enforcement Intelligence Units)
- terrorism used to foster insecurity among the population and drive them to the insurgents for protection
- multifaceted attempts to cultivate support in the general population, often by undermining the new regime
- attacks against the government

Those recruiting Subversives often use motivations of nationalizing private resources, dispossessing property owners for divy, and ethnic or racial based robberies in my case genetics.

Offensive terror

Offensive terror can be defined as the killing of people, destruction of property, kidnapping, etc. It is usually a minor part of subversion and, "is used not to exert force in the transfer of state power, but is meant to cower the people or ruler".[33] Force used in this manner is meant to reinforce other forms or persuasion in addition to cowering the people or leaders.[37] Additionally, much like civil unrest and agitation, it raises the question of whether or not the state can provide security for the population. Terror also provides a practical motivation of physically removing political opponents. The assassination of an organization's leader may open the door to a successor that is more friendly to the subversives position or possibly someone that has successfully infiltrated the organization and is in fact one of the subversives.

Bribery

Bribery is one of the most common tools of subversion. Most societies see bribery as a form of corruption and it used as a subversive tool because it, "implies the undermining of existing rules of political or moral conduct".[38] It can also be one of the less reliable tools as well. Bribed officials are only useful if they take action. However actions taken over a period of time draw suspicion from the public. The official must be able to carefully conceal their actions or perform only key functions and action. For these reasons bribed officials are most effective when they are asked to take immediate action. In the case of external subversion, bribery is usually used for influence rather than for actions.[39]

Subversive activity is the lending of aid, comfort, and moral support to individuals, groups, or organizations that advocate the overthrow of incumbent governments by force and violence. All willful acts that are intended to be detrimental to the best interests of the government and that do not fall into the categories of treason, sedition, sabotage, or espionage are placed in the category of subversive activity.
